# BUSINESS PERFORMANCE

## CANADA

## MEXICO

## USA

- + - All markets surpass their targets, with the USA leading in contribution.
- Compared to the total transactions of 270K and revenue of \$2M, the USA accounts for 67% of transactions and 50% of revenue, followed by Mexico at 27% and 24%, while Canada contributes the least at 6% and 5%.

# PRODUCT ANALYSIS

Transactions by Price Tier

Mid price tier is the largest, with 183K transactions accounting for 67.7% of the total, significantly outpacing the High (16.9%) and Low (15.4%) tiers.

=> Market demand is strongest for mid-priced products, reflecting a preference for affordability without compromising on quality.

Top 20 Products By Revenue	Revenue	Transactions	Return %

# CUSTOMER ANALYSIS

Customer Gender Distribution

49.6%

50.4%

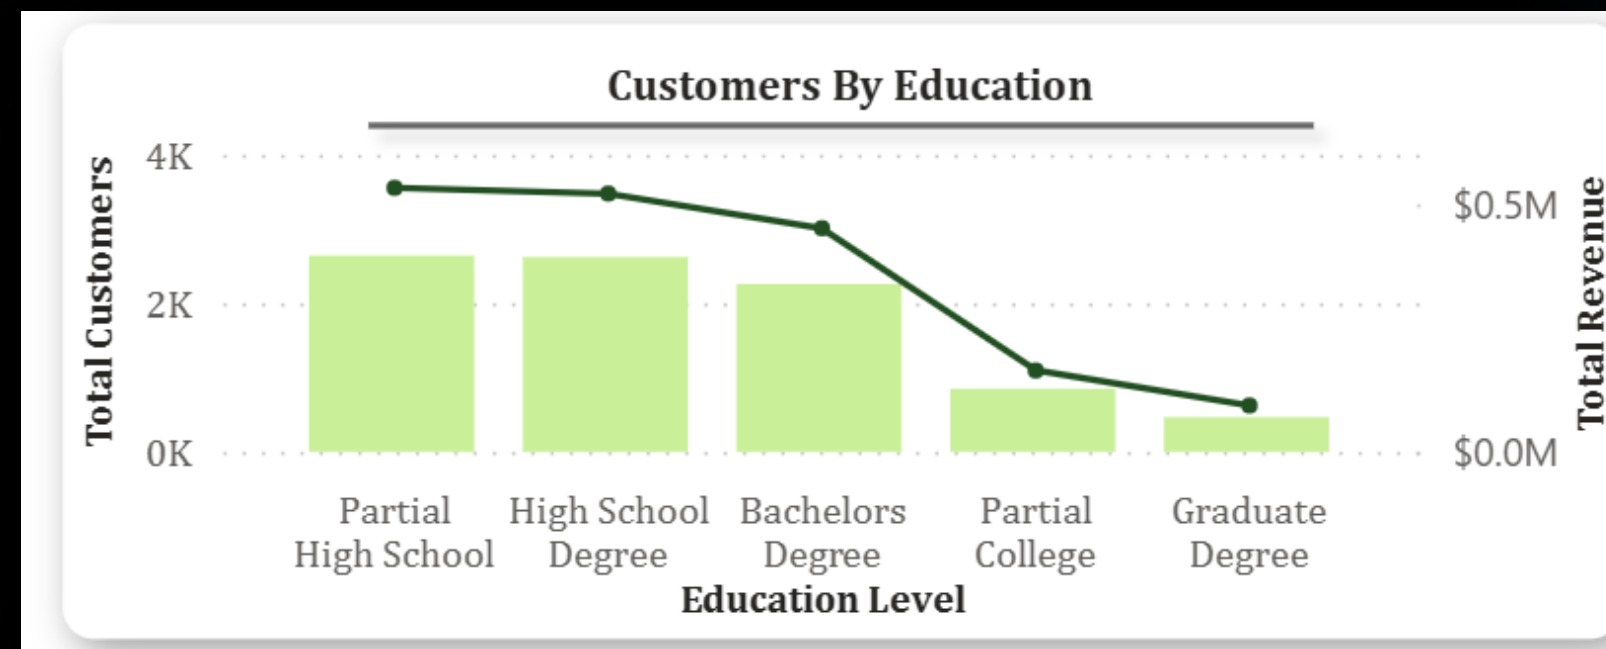

An almost balanced gender ratio among customers. This equilibrium demonstrates that Maven Market's offerings attract both genders in similar proportions, indicating comprehensive market coverage.

Transactions by Yearly Income

- The \$30K-\$50K income group leads with the highest transactions and revenue, followed by the \$10K-\$30K and \$50K-\$70K groups.
- However, higher income groups like \$110K-\$130K, \$130K-\$150K, \$90K-\$110K and \$150K+ have significantly lower transactions and revenue, below 0.2M, showing a clear disparity in purchasing behavior across income levels.

# CUSTOMER ANALYSIS

- Customers with Partial High School, High School Degree, and Bachelor's Degree have the highest numbers, each around 2K to 2.5K, while Partial College and Graduate Degree holders are much lower, under 1K each.
- Similarly, revenue is high for Partial High School, High School Degree, and Bachelor's Degree at around \$0.5M, but it drops significantly to nearly \$0M for Partial College and Graduate Degree holders, highlighting a stark disparity in revenue contribution.

# CUSTOMER ANALYSIS

Maven Market's customer base primarily consists of married or single homeowners without children, suggesting a focus on household-oriented products.

# CONCLUSION

- Maven Market demonstrates strong performance across its key markets, with all regions surpassing revenue and transaction targets, led by the USA which contributes 67% of transactions and 50% of revenue.
- However, to sustain this growth and further enhance efficiency, the company should focus on improving product quality for high-return items, refining marketing strategies to target high-potential customer segments like the \$30K-\$50K income group, and optimizing regional campaigns to better penetrate markets like Canada and Mexico.
